Knowledge Quest is the vehicle for school librarians to transform their own learning

Published by the American Association of School Librarians, Knowledge Quest is dedicated to offering substantive information to assist building-level school librarians, supervisors, library educators, and other decision makers concerned with the development of school library programs and services.

Read real-life experiences from school librarians working in schools at every K-12 level. KQ contains more than 400 posts from bloggers and AASL leaders on topics including:

- Advocacy/leadership
- Collection development
- Community/teacher collaboration
- Intellectual freedom
- Makerspaces/learning commons
- Professional development
- STEM/STEAM
- Student engagement/teaching models
- Technology

Make KQ your go-to site. New content is posted daily!
