ALA’s Financial Value Proposition

“To develop and deploy the financial resources that support the strategic plan and delivery of programs that are responsive to member needs and the improvement of library service.”
Key Messages

- ALA needs $600,000 to $750,000 in new revenue each year just to stay even
- ALA has a de-facto two year budget cycle
- 2009 is the last year of the dues increase
- ALA must continually develop new sources of revenue

Environmental and Financial Landscape

- Economic slowdown may affect:
  - state and local budgets and library funding;
  - travel to ALA conferences and meetings;
  - purchases of ALA products and services;
  - less advertising revenue

- Lower rates of return will likely result in less investment income that may challenge funding some operations and scholarships
Environmental and Financial Landscape (Con't)

➤ The "Graying" of the profession will challenge membership retention and growth

➤ Use of technology continues to expand and costs are substantial

➤ Increased cost of healthcare benefits for ALA employees
