Earned Media

The following is a snapshot of Communications and Marketing Office (CMO) publicity activities that took place from April 25 -May 29, 2019. During this timeframe more than 1,044 articles mentioning the American Library Association (ALA) were captured by ALA’s monitoring service.
Meltwater News resulting in a circulation rate of 375 million and a publicity value of more than $3 million. (Please note that circulation rate is calculated using the number of articles/mentions multiplied by the monthly unique visitors for each media outlet’s website.)

During this reporting period most of coverage (90 percent) was positive and focused on ALA initiatives. Approximately (7 percent) of coverage was neutral and consisted of brief ALA mentions, including event calendar notices, or mentions within author references. Less than (3 percent) of coverage positioned ALA negatively and was fueled by the association’s position regarding censorship.

Per the News Media Alliance (formally the Newspaper Association of America), there are more than 1,200 daily newspapers and 5,700 weekly newspapers in the United States, so the following placements should be viewed as a snapshot of achieved coverage.

Dia, April 30

CMO worked with the Association for Library Service to Children (ALSC) to promote its Día initiative, which culminated on April 30. CMO’s media outreach activities included developing a Web press kit and press release. Media placements appeared in Herald Journal, El Paso Times, Hoodline, The Columbian, and The Windsor Times.

Libraries = Strong Communities Rally/Celebration Preparations, June 22

ALA President Loida Garcia-Fedo launched “Libraries = Strong Communities” in New Orleans during the 2018 ALA Annual Conference & Exhibition. This national library tour effort worked to highlight the value of academic, public and school libraries and empowers patrons to advocate for their libraries at the local and national level. During Garcia – Febo’s presidential year, CMO developed marketing and publicity resources to support the “Libraries = Strong Communities” activities. Support included the development of artwork, Because Statements, multiple American Libraries blog posts, bookmarks, t-shirts, banners and launch and recap (June delivery scheduled) videos.

Garcia-Fedo traveled more than 200,000 miles and visited a variety of libraries in eight countries. She met with local advocates, library leaders and city government officials to discuss how libraries strengthen communities through education and lifelong learning. More than 200 media organizations provided coverage of Libraries =Strong Communities and reached more than 56 million potential advocates in communities across the country. Media Highlights are available at http://www.ilovelibraries.org/libraristransform/libraries-strong-communities#news.

Tour efforts will come to an end during the 2019 ALA Annual Conference and Exhibition. (OIF)

Discussion of Rising Incidence of Censorship Legislation in the States

Choose Privacy Week

From May 1-7, the Office for Intellectual Freedom joined the IFC Privacy Subcommittee in observing Choose Privacy Week. The theme, “Inclusive Privacy: Closing the Gap,” focused on the privacy inequities imposed on vulnerable and historically underrepresented populations and highlighted how libraries can close the privacy gap for persons belonging to those communities. The week included an online symposium that featured commentaries by librarians, educators, and privacy experts addressing disability and privacy, student privacy, library privacy for LGBTQ youth, the privacy concerns of formerly incarcerated persons, immigrants’ privacy, government surveillance, and conversations on why privacy matters in the library. The commentaries are available on ALA’s Choose Privacy Everyday blog.

In anticipation of a new edition of the Intellectual Freedom Manual, the Intellectual Freedom Committee is continuing to update intellectual freedom-related documents. Below is a list of Library Bill of Rights interpretation revisions that have been shared widely for feedback, and that the committee plans to bring to ALA Council at Annual Conference for potential adoption. The committee also plans to send the interpretation drafts to ALA Council prior to the conference and take them to Council Forum for additional feedback. ALA Highlights Libraries at U.S. Census Bureau Press Conference, Files Amicus Briefing on Supreme Court Citizenship Question

On April 1, Census Day, ALA President Loida Garcia-Febo participated in a press conference held by the U.S. Census Bureau at the National Press Club in Washington, D.C., along with three top leaders of the Bureau, the president of The Annie E. Casey Foundation and governor of the Chickasaw Nation. ALA President Loida Garcia-Febo focused her remarks on libraries’ critical role of achieving a fair and accurate count in the Census, pointing out that “99 percent of hard-to-count areas are located within five miles of a public library.” The same day, ALA also joined an amicus brief to the U.S. Supreme Court opposing the last-minute addition of a citizenship question to the 2020 Census. With the American Statistical Association, American Sociological Association, and the Population Association of America, ALA filed in support of the plaintiffs in Department of Commerce v. New York. The case was appealed directly to the Supreme Court after a federal court ruled for the plaintiffs and ordered the Commerce Department to remove the question. Arguments in the case were heard April 23, and the Supreme Court is expected to rule before June 2019, when census forms are scheduled to go to press. On May 16, ALA released the Libraries’ Guide to the 2020 Census, a new resource which includes background about the Census and information about how libraries can get involved. Members can stay up-to-date with all things related to libraries and the Census by subscribing to ALA’s new e-newsletter and visiting ALA’s 2020 Census page at www.ala.org/census.

House Committee Provides Increase for LSTA, IAL

Following the work of ALA advocates during the Dear Appropriator letter campaign, ALA submitted comments to the House Appropriations Committee urging the committee to approve increases for LSTA and IAL. The House Appropriations Committee approved increases to Library Services and Technology Act (LSTA) and Innovative Approaches to Literacy (IAL) programs. The House Committee provided a $17 million increase for LSTA, all dedicated to the Grants to States program, which meets the increase needed to launch a new funding formula provided in last year’s LSTA reauthorization bill. The new formula would raise the minimum funding level for each state to $1 million, which will benefit smaller states while ensuring larger states will not lose funding. The IAL program received a $2 million increase in the House bill. While the full House is working to move all its appropriations bills before the July 4 recess, the Senate is on a slower track and may not start moving any bills before mid-June. Senate funding bills are expected to recommend cuts to many education and library programs, though not call for elimination as the President’s budget recommended. House and Senate leadership is discussing a possible budget deal that will avoid substantial mandatory cuts to domestic and defense programs, and which the President will sign. We expect negotiations to continue through the summer as leaders seek to avoid a government shutdown in the fall. In the meantime, Public Policy and Advocacy is working closely with Chapter Relations to recruit and equip member leaders in strategic locations. ALA held a series of conference calls in targeted states to advocate support for LSTA and IAL funding in print media. One success is a letter to the editor published in the Bangor Daily News written by Maine Library Association Legislative Chair Sonya Durney, whose Senator Susan Collins (R-ME) serves on the Senate Appropriations Committee.
AASL President Advocates for School Libraries in Panel on Capitol Hill

On May 9, AASL President and Norman (OK) Public Schools Director of Libraries and Instructional Technology, Kathryn Roots Lewis, participated in a congressional briefing to discuss the disastrous consequences on education, including school libraries, if the President’s budget cuts to LSTA and Title II were adopted. The briefing was sponsored by a longtime ALA coalition partner, the Committee on Education Funding. In her remarks, Roots Lewis said, “Statewide databases for all Oklahomans including all school age learners are made possible in part by using LSTA funds.” Pointing out the impact of Title II, she continued, “School librarians champion the teaching role that is an integral part of their practice and benefit from Title II funds…. [which] are used to create a community of educators focused on providing students with research experiences that allow learners to have voice and choice in their own learning while still mastering the articulated state standards.” In addition to her valuable voice in support of libraries, Roots Lewis’ voice contributed strategically to the coalition’s budget messaging as her congressional representative, Rep. Tom Cole (R-OK-4), is a member of the House Appropriations Committee.

ALA Hosts Member Panel on Libraries and Child Literacy on Capitol Hill

On June 4, ALA hosted Slide into Learning: Libraries Advance Literacy and Prevent the Summer Slide, a panel discussion for members of Congress, their staff and other education policy stakeholders on Capitol Hill. The panel featured Elizabeth Rush, library specialist from Northside Independent School District (TX) Library Services; Jo Giudice, director of libraries for the City of Dallas; and Nawaid Ladak, legislative assistant in the office of Congresswoman Eddie Bernice Johnson (D-TX-30). Moderated by Liana Heitin Loewus, assistant managing editor of Education Week, the panel examined how libraries supplement school curriculum, both in and out of the classroom, and discussed opportunities for robust partnerships with elected officials and community stakeholders.

ALA, PLA Initiative Continues to Award Micro-Funding Across America

Since the kick-off in January of this year, the Libraries Lead with Digital Skills initiative has awarded $1000 grants to libraries in PA, CT, OH, MD, VA, NM to hold workshops for job seekers, small businesses, and entrepreneurs using their own and Grow with Google resources. Projects cover basic digital literacy skills training and go beyond the basics. The Wicomico (MD) Public Libraries Downtown Branch, for example, is hosting a one-day workshop designed to connect developmentally challenged adults to resumé building skills and job search options. Other libraries will be building partnerships with job centers or economic development councils such as the Chesapeake (VA) Public Library which will be working with Roads Workforce Council to provide a one-day event focused on transitioning military, veterans, and military spouses who are job seekers.

ALA Reorganizes Public Policy and Advocacy Office, Prepares for Buildout of National Network

To align ALA’s federal, state and local advocacy efforts, the former Office of Library Advocacy (OLA) as a stand-alone unit has been eliminated and the responsibilities absorbed by PPA. The reorganization will better position ALA for the future in building a national network of ALA advocates as well as make ALA more effective and collaborative in our policy and advocacy efforts at all levels of government. The high-quality case management services that OLA provided Chapters will continue with PPA. A Manager of State Advocacy position was created to perform state and local policy and advocacy activities, and staff the Committee on Library Advocacy with the support of the PPA unit. Megan Cusick, previously the Grassroots Specialist
in OLA, accepted the position and will continue to work from headquarters in Chicago as part of the PPA team.

**ALA Highlights State Advocacy Successes, Supports Local Libraries**

ALA continues support for libraries at state and local level, focused primarily on censorship issues and school libraries fighting elimination of certified librarians in districts throughout the country. The May Chapter Advocacy Exchange webinar showcased the work of Maine and Colorado library leaders, who successfully fought censorship legislation in their respective states. In ALA, President Garcia-Febo and AASL President Roots Lewis sent a letter of thanks to Seattle Public Schools' officials for restoring librarian positions in the district. ALA continues to work with the Washington Library Association on a systemic solution to cuts in other districts around the state and continues support for libraries of all kinds nationwide facing specific challenges at the local level.

**Libraries Invited to Apply for Great Stories Club Grants on Truth, Racial Healing & Transformation**

Library workers are invited to apply for the Great Stories Club series on Truth, Racial Healing & Transformation (TRHT), a thematic reading and discussion program that engages underserved teens through literature-based library outreach programs and racial healing work. Visit the project guidelines and apply online by July 15. Up to 35 libraries will be selected. An expansion of ALA’s longstanding Great Stories Club program model, the TRHT series features books that explore questions of race, equity, identity, history, institutional change and social justice. The series is a part of the W.K. Kellogg Foundation’s Truth, Racial Healing & Transformation efforts, a comprehensive, national and community-based process to plan for and bring about transformational and sustainable change, and to address the historic and contemporary effects of racism. Participating libraries will work with small groups of approximately 10 teens; provide up to four theme-related books for each participant to keep; and convene opportunities for exploration and discussion of relevant humanities content among peers. Libraries will also be encouraged, but not required, to offer at least one interactive session led by a racial healing practitioner. The TRHT Great Stories Club is administered by PPO in collaboration with ODLOS.

**ALA Reaches Fundraising Goal to Support Community Engagement Work in Libraries**

The ALA Public Programs Office, in collaboration with the Development Office, has reached a significant fundraising goal for its Cultural Communities Fund that will support the work of community engagement in libraries. Announced in fall 2016, the initiative was made possible by a matching grant from former ALA president and longtime generous supporter Nancy Kranich. With donations made by 130 individuals between 2016 and 2019, the Cultural Communities Fund has surpassed its $50,000 goal to launch the endeavor, reaching $60,000 in contributions. A member of ALA’s Legacy Society, Kranich is committed to growing the fund over the years ahead. PPO will announce more information about the programs supported through this initiative in the coming months. ALA’s Cultural Communities Fund supports humanities, civic and STEM programming in libraries of all types. With help from individual and corporate donors, the fund has grown into an endowment of $1.9 million.

**ALA, Harwood Institute Announce 2019 Public Innovators Lab for Libraries**
PPO and The Harwood Institute for Public Innovation have announced a 2.5-day training opportunity to help libraries lead positive change in their communities. Librarians, community partners and stakeholders in libraries of all types — public, academic, school and special libraries — are invited to attend. The Harwood Public Innovators Lab is an intensive workshop that explores the practice of Turning Outward — using the community, not your conference room, as the reference point for library choices and action. Participants will leave the Lab as the latest class in a group of more than 4,000 library professionals who have learned this approach to community engagement. Participants must register online by October 15. The cost is $995 per person. The Lab is offered as part of PPO’s Libraries Transforming Communities initiative.

The Board also approved new Guidelines for Standardized Holdings Counts and Measures for Archival Repositories and Special Collections Libraries (PDF) at the April meeting. Developed by the SAA-ACRL/RBMS Joint Task Force on the Development of Standardized Holdings Counts and Measures for Archival Repositories and Special Collections Libraries, the guidelines were intended to help archival repositories and special collections libraries quantify and communicate information about holdings. Approval of the new guidelines by the Society of American Archivists (SAA) Council is pending.

ACRL Program Proposals for 2020 ALA Annual Conference

ACRL invites its committees, sections, interest groups and individual members to consider submitting program proposals for the 2020 ALA Annual Conference in Chicago, Illinois. Program proposals will be submitted via a centralized submission site for all ALA Divisions, Round Tables, Committees, and Offices. ACRL members must choose “ACRL” on the first screen of the submission form in order to have the program included in the ACRL pool of programs to be reviewed. The submission site is expected to open in early June 2019. There will be a virtual meeting at 3:00 p.m. (Central) on June 3, 2019, for ACRL units and members interested in submitting proposals for a 2020 ALA Annual Conference program. The purpose of this meeting is to provide potential conference program planners with an understanding of the Annual Conference program planning process, including budgets, timelines, and planning tips. Complete details are on ACRL Insider.

ACRL Presents Webcast – ACRL Libraries Transform Toolkit

In 2016, ACRL charged a task force to adapt ALA’s Libraries Transform campaign for ACRL. A free ACRL Presents webcast was held on Tuesday, April 30, to unveil the new toolkit, which arose out of the needs expressed during the committee’s assessment of marketing and outreach activities across academic libraries. Surveys and discussions with various stakeholders revealed a need to have access to easy to use outreach best practices and materials in a way that allows for flexibility and adaptability. This toolkit is designed to be a work in progress and allows for the uploading and sharing of content over time. A recording of the webcast is available on the ACRL YouTube channel.

ACRL e-Learning

ACRL’s e-Learning program offered two live webcasts during this report period. 34 individuals and 19 groups participated in e-learning, focusing on teaching online in plain language and an introduction to the creative commons. Upcoming topics for the ACRL e-Learning program include conversational topics and difficult dialogues, impostor syndrome, and a four-part series on the Scholarship of Teaching and Learning. Full details and registration information are available on the ACRL website.

2019 ALSC Membership Needs Assessment Survey

ALSC launched a 2019 Needs Assessment Survey to its members on May 2. This survey was last conducted in 2015 and helps assess who ALSC members are, how they use their membership, and how the association can best serve these members. ALSC Partners to Support National Summer Learning Week 2019

In 2018, ALSC collaborated with the National Summer Learning Association (NSLA) to promote National Summer Learning Day (July 12). The webinar also featured Caldecott winning illustrator Bryan Collier; the 2018 National Summer Learning Day official ambassador. This year, ALSC will join NSLA and ACM to promote a weeklong summer learning event, designed for youth of all ages and organized around theme days.

Leadership Development within ALSC

In May, the 2019 ALSC Nominating and Leadership Development Committee hosted an online Community Forum for ALSC members called “Leadership Development within ALSC”. The Education Committee will be selecting proposals on a rolling basis to allow for webinars and courses to be added multiple times throughout the year.

Update on A New Division
Library Leadership and Management Association (LLAMA)

Update on A New Division

When this discussion began early last year, we had hoped to bring the proposed merger to a member vote during the spring 2019 election. However, that timeline proved too ambitious. We wanted to make sure the new division could provide far more robust service to members than the three divisions can provide separately. We also needed more time to work through key operational details and to sufficiently involve our members in the discussion.

In recognition of this, the three Boards agreed at Midwinter to pause the project. Since then, the Steering Committee has had discussions about how best to meet our goals, communicate with members, and finalize the process.

We are happy to report that the leadership of all three divisions will continue to work together, so that we can present the best possible proposal for consideration on the spring 2020 ballot. We’ve already begun some joint projects and will have a new timeline to present at our joint Board meeting at the 2019 ALA Annual Conference on Monday, June 24, from 1:00-3:30 p.m. in room 207B of the convention center. We’re currently exploring providing a livestream of the portions that won’t involve small group discussions.

Get more details in our ALCTS/LLAMA/LITA Alignment Discussion group in ALA Connect, which you can join to receive updates, or you can always find the most current information here. Expect to see more activity, updates, and opportunities to share your thoughts with us starting later this summer.

Public Library Association (PLA)

Reminder to Attend Breakfast for Public Library Councilors at ALA Annual

As part of its “Stronger Together” outreach effort, PLA will host a breakfast at the ALA Annual Conference for ALA Councilors who work in public libraries and/or are PLA members. The event will provide an opportunity to meet with PLA leaders, learn about PLA priorities, and discuss how PLA and ALA can best address areas of shared interest. The inaugural “Stronger Together” Breakfast for ALA Councilors was held at the 2019 ALA Midwinter Meeting, and the majority of attendees said the event helped them better understand how PLA works with ALA. Two-thirds requested guidance on specific PLA concerns in order to better advocate for public libraries at Council. The next “Stronger Together” breakfast will be held on Monday, June 24, 7:30-8:15 a.m. (Eastern), in Salon 12 of the Marriott Marquis Washington DC. Councilors who work in public libraries and/or are PLA members will receive an invitation with more information. PLA hopes to create an ongoing dialogue with the Council throughout the year, so even if you cannot attend the June 24 breakfast, please feel free to share any questions and comments about PLA by emailing Executive Director Barb Macikas at bmacikas@ala.org.
Public Libraries in Connecticut, Maryland, New Mexico, Ohio and Virginia Awarded Funding for Workforce Development

In early May, PLA announced the names of another 36 libraries across five states, which have been selected to receive funding from Libraries Lead with Digital Skills, an initiative of ALA and PLA, sponsored by Grow with Google. The goal of the initiative is to ensure that public libraries across the nation receive ongoing access to free tools and resources to help everyone across America grow their skills, careers and businesses. With the addition of Connecticut, Maryland, New Mexico, Ohio and Virginia the total number of grantees is now at 56. The other 20 libraries are in Pennsylvania, the first of 50 states to be announced. Click here to view the names and locations of the libraries. The $1,000 grants can be used by libraries to continue or expand services and programs related to workforce development — either to assist job seekers in finding or preparing for work, or to empower small businesses to grow online. Grantee libraries will integrate Grow with Google programs into events or ongoing workshops to address the needs of their communities. In addition to the funding, awardees will receive marketing support, technical guidance, advocacy tools and a community of practice with the goal of drawing attention to the services libraries provide. The goal of the tours was to explore leadership models in different contexts, as well as the role of leadership in developing innovative services. Each visit focused on different leadership approaches to supporting innovative programming, community engagement, and staff development. Both hosts and visitors learned a great deal and established new, international networks. Learn more.
