DATE: 11 October 2012

BACKGROUND:

In accordance with ALA Bylaws (Article IX, Sec. 1), the ALA Executive Board presents to the ALA Council for approval both the annual estimates of income and the budget objectives (programmatic priorities) for approval. By practice, the programmatic priorities or budget objectives are presented early in the budget preparation cycle (at the Midwinter Meeting) in order to provide guidance in its development. The annual estimates of income derive from the work of budget development and are presented to Council for approval at the ALA Annual Conference, prior to the final approval of the budget by the ALA Executive Board.

*ALA 2015* goals and objectives were approved by the ALA Council at the 2010 Annual Conference. They articulate five-year goals and objectives that, collectively, direct Association activity – such as advocacy or research – toward accomplishment of specific ends within the mission of the Association and the broad arenas of the programmatic priorities. Within the framework of approved mission, programmatic priorities, goals and objectives, specific implementation strategies are developed and implemented through the annual budget.
The following list of programmatic priorities was approved annually by the ALA Council, on recommendation of the ALA Executive Board, from 1997-2005.

- Diversity
- Education and Continuous Learning
- Equity of Access
- Intellectual Freedom
- 21st Century Literacy

At the October 29, 2005 ALA Executive Board meeting, following adoption of ALA’s 2010 strategic plan, during the discussion on programmatic priorities, ALA President Michael Gorman suggested some changes to the draft list of FY2007 Programmatic Priorities (2005-2006 EBD#12.8). He then asked Board members Leslie B. Burger, Carol A. Brey-Casiano and James R. Rettig to review the list and make revisions to better align the programmatic priorities with ALA’s strategic plan – ALA Ahead to 2010.

In January 2006, the ALA Council first approved the revised list of key action areas as the FY2007 programmatic priorities, developed in accordance with ALA Ahead to 2010:

- Diversity
- Equitable Access to Information & Library Services
- Education and Lifelong Learning
- Intellectual Freedom
- Advocacy for Libraries and the Profession
- Literacy
- Organizational Excellence

These priorities were approved annually, on recommendation of the ALA Executive Board, from January 2006 through January 2010 (FY11).

In Fall 2010, in accordance with the ALA 2015 Strategic Plan, approved by the ALA Council in June 2010, the ALA Executive Board added Transforming Libraries to the list of programmatic priorities recommended to the ALA Council. The programmatic priorities, as proposed, were first approved by the ALA Council at the 2011 Midwinter Meeting in San Diego.

Attachment: ALA 2015 Strategic Plan
**Core ideology** describes an association's consistent identity that transcends all changes related to its relevant environment. It consists of two elements - **core purpose** – the association's reason for being – and **core values** – essential and enduring principles that guide an association in creating its culture and making decisions.

**Founding Purpose:**

The object of the American Library Association shall be to promote library service and librarianship. (ALA Constitution, Article II)

**Mission:**

The mission of the American Library Association is to provide leadership for the development, promotion and improvement of library and information services and the profession of librarianship in order to enhance learning and ensure access to information for all. (ALA Policy 1.2)

**Core Organizational Values**

The Association is committed to:

- Extending and expanding library services in America and around the world
- All types of libraries - academic, public, school and special
- All librarians, library staff, trustees and other individuals and groups working to improve library services
- Member service
- An open, inclusive, and collaborative environment
- Ethics, professionalism and integrity
- Excellence and innovation
- Intellectual freedom
- Social responsibility and the public good

**Key Action Areas**

*ALA is committed to seven Key Action Areas as guiding principles for investment of energies and resources:*
Advocacy for Libraries and the Profession

The association actively works to increase public awareness of the crucial value of libraries and librarians, to promote state and national legislation beneficial to libraries and library users, and to supply the resources, training and support networks needed by local advocates seeking to increase support for libraries of all types.

Diversity

Diversity is a fundamental value of the association and its members, and is reflected in its commitment to recruiting people of color and people with disabilities to the profession and to the promotion and development of library collections and services for all people.

Education and Lifelong Learning

The association provides opportunities for the professional development and education of all library staff members and trustees; it promotes continuous, lifelong learning for all people through library and information services of every type.

Equitable Access to Information and Library Services

The Association advocates funding and policies that support libraries as great democratic institutions, serving people of every age, income level, location, ethnicity, or physical ability, and providing the full range of information resources needed to live, learn, govern, and work.

Intellectual Freedom

Intellectual freedom is a basic right in a democratic society and a core value of the library profession. The American Library Association actively defends the right of library users to read, seek information, and speak freely as guaranteed by the First Amendment.

Literacy

The ALA assists and promotes libraries in helping children and adults develop the skills they need—the ability to read and use computers—understanding that the ability to seek and effectively utilize information resources is essential in a global information society.
Organizational Excellence

The association is inclusive, effective and responsive to the needs of ALA members.

Transforming Libraries

ALA provides leadership in the transformation of libraries and library services in a dynamic and increasingly global digital information environment.

The Goals and Objectives represent strategic areas of focus for the next three to five years. The goals articulate the outcomes ALA would like to achieve and answer the question, “What will constitute future success?” The achievement of each goal will move the organization toward realization of its envisioned future. The goals are not necessarily identified in priority order.

Objectives provide direction on how ALA will accomplish its articulated goals. Objectives are considered in the 3-5 year planning horizon.

The envisioned future conveys a concrete yet unrealized vision for the association. It consists of a big audacious goal—a clear and compelling catalyst that serves as a focal point for effort—and a vivid description—vibrant and engaging descriptions of what it will be like to achieve the big audacious goal.

Big Audacious Goal:

ALA builds a world where libraries, both physical and virtual, are central to lifelong discovery and learning and where everyone is a library user.

Vivid Description of the Desired Future:

ALA is recognized as leading and supporting a continuous transformation of libraries of all types in response to the changing needs, expectations, demographics, and technologies of the populations they serve. Libraries and their staff are perceived as vital to the communities they serve; connecting people and ideas to each other and to the world.

All people have wide access to knowledge, information and their cultural heritage, when and where they need and expect it. Users are the primary advocates for libraries, recognizing library services as essential to learning and to individual and societal enrichment.

Libraries are widely recognized as key players in economic development, in building strong and vibrant communities, and in sustaining a strong democracy. Libraries are also recognized as an essential component of the educational system, providing critical youth literacy services, enriching formal education, and supporting lifelong learning. They are key providers of free and permanent public access to government information and e-government services.

School libraries are considered fundamental to a student's education and school librarians are seen as indispensable instructional leaders. Academic and research libraries and librarians are indispensable in advancing learning and scholarship and preserving our cultural heritage. Public libraries are recognized as the interactive place where people find the best resources, programming, and learning opportunities and use information to solve problems and build bridges between people. The services of libraries of all types are readily accessible and welcoming to all, including persons with disabilities.

Libraries collaborate effectively with each other, with museums, archives and other information providers to increase public access to information. They offer access to local and global resources in a vast variety of print and electronic
formats. Library users have access to physical libraries that serve as community learning centers, and online access to library resources 24 hours a day, and through a variety of technologies. Libraries embrace technology and are seen as trusted leaders in the information age.

As a result, all types of libraries are adequately funded, librarianship is a sought after profession, librarians are leaders in the information community, information is accessible to all and all people in the United States are literate library users.
