Summary: Vincent van Gogh

Painter Vincent van Gogh was born in a cloudy, rainy country. He finally moved and painted fields of sunflowers in the beautiful light of southern France. Even though many people did not like his paintings when he was alive, van Gogh’s work is now famous and hangs in museums around the world.

Synthesis: A Touch of Yellow

Painter Vincent van Gogh was born in a cloudy, rainy country. He finally moved and painted fields of sunflowers in the beautiful light of southern France. In many paintings, van Gogh used yellow paint. Yellow is a warm, happy color. These paintings could make someone who feels sad feel happy again. Even though many people did not like his paintings when he was alive, van Gogh’s work is now famous and hangs in museums around the world.
