Welcome to ACRL-STS

Since 1961, the Science and Technology Section of ACRL has fostered sci/tech librarianship. STS members continue to share ideas, mentor newer members and find solutions to problems encountered in our daily work. We strive to make our activities relevant and useful to you. The most visible activity of STS is our ALA Annual Conference Program, but we offer a variety of events at both Midwinter and Annual, as well as sponsoring events like field trips, dinners, and the like.

Listserv and STS Signal Newsletter

If you have not already, be sure to sign-up for STS-L to receive section news, engage in interesting discussions, and more.

Mentorship Program

The STS Sci/Tech Library Mentors help new or less experienced librarians identify experienced science librarians willing to serve as mentors. Participants can select their topics of interest and preferred means of communications, and the Professional Development Committee will seek to pair them with an appropriate mentor. More information is on the STS web site.
