ACRL continuously lives up to and exceeds my expectations. It was great to spend real time with librarians and library professionals committed to the ACRL. I can’t imagine a better conference experience. It was a fun and informative event. I love being a librarian and am proud of our profession. I feel that Great sessions, great people, great food. What else could I ask for? I leave ACRL with inspiration from and appreciation for the past, excitement for even more now after attending this event. If you have a chance to go to ACRL in the future don’t miss it! Librarians are the quintessential collaborators, effort. The ACRL conference experience is like no other! Programming is superb and the opportunity to connect with academic and research library colleagues is rejuvenating. It’s great to be energized by my fellow librarians. ACRL is consistently my favorite conference. I hope to never miss it! I apply the many new ideas that I had gathered.

Introduction

Academic librarians, scholars, and colleagues from across the United States and around the world gathered for the Association of College and Research Libraries (ACRL) 2019 conference, “Recasting the Narrative,” in Cleveland, Ohio, April 10-13, 2019.

Today’s academic and research libraries are vibrant and fast moving, responding quickly to changes in the higher education landscape. Just as our host city of Cleveland has undergone a revitalization in recent years, library professionals must continually reinvent themselves to stay on the cutting edge. The papers contained in these proceedings offer research results, new ideas, solutions, and complex issues for us to consider. It is our hope that they illustrate what it means to be an academic library professional in the 21st century, adapting and leading the transition to new roles.

The Contributed Papers featured in these proceedings were selected via blind, peer-review from more than 370 proposals, with an acceptance rate of twenty-five percent. We extend our gratitude to all those who submitted paper proposals and to the members of the ACRL 2019 Contributed Papers Committee who served as reviewers:
