NISO/EDItEUR JWP

- NISO/DLF white paper, “The exchange of serials subscription information,” by Ed Jones
- ONIX for Serials draft Spring 2002
- JWP established Fall 2002
### JWP Membership (partial)

- Johns Hopkins
- University of Chicago
- NCSU
- Sirsi
- Ex Libris
- III
- CrossRef
- OCLC
- EBSCO
- Harrassowitz
- Serials Solutions
- TDNet
- Oxford Univ Press
- Wiley
- Library of Congress
- NSDP

### Some JWP Concepts

- Serial work
- Serial version
- Product
- Online Service
- Online Package
Serial Products and Subscriptions: Transactions

- Publisher to Library (or intermediary)
  - Priced and unpriced list of available products, showing works and serial versions included in each product
  - Products with prices subscribed to by the library
- Library to Publisher (or intermediary)
  - Products subscribed to by library (from library to publisher/intermediary)

Serial Products and Subscriptions: Use Cases

- Obtain publisher’s price catalog
- Compare library’s subscriptions to publisher’s offerings
- Ascertain which print titles have electronic versions
- Reconcile library and publisher records
Serial Online Holdings: Transactions

- PAMS or Subscription Agent to Library
  - Online journals listed by title indicating online service provider
  - Online journals listed by online service provider, indicating holdings included

Serial Online Holdings: Use Cases

- Create an A-Z list of ejournals with hotlinks
- Populate a link resolution server
- Provide data to an e-resource management system
Advantages

- Consistency of representation
  - for libraries comparing data from different sources
  - for intermediaries receiving data from different sources
  - for publishers sending data to different sources
  - for library systems importing data from different sources

More Advantages

- XML -- ease of processing
- Encourage sharing
- More timely information
- More consistent statistics
- Part of larger e-resource management
Current/future work

- Publish SPS & SOH v. 0.9
  - http://www.editeur.org/onixserials.html
- Finish SPS & SOH pilots
- Coverage (how to represent holdings)
- License terms
- Serial Release Notification (SRN)

JWP Concepts

- Serial work
- Serial version
- Product
- Online Service
- Online Package
The Need for Usable Identifiers

- Serial work - ISTC? DOI?
- Serial version - ISSN?
- Product - ?
- Online Service - ?
- Online Package - ?
- Publisher / subscription agent / PAMS - SAN
- Library / library consortium / library unit - ISIL?

ISO ISSN Revision

- TC46 SC9 WG5
- From Paris to Amsterdam
  - “functional granularity”
  - investigate options for title identifier
  - wider access to ISSN registry
- www.collectionscanada.ca/iso/tc46sc9/wg5.htm
