Tweens have both diverse learning methods and diverse tastes in reading. We also know that readers like to explore their interests in ways that are concrete, as well as imaginative. Pairing nonfiction and fiction titles on the same subject can help readers draw connections and inspire critical thinking, as well as build vocabulary and reinforce ideas. This list presents twenty-six tween-friendly nonfiction books that have been paired with a complementary work of fiction. For more information on the fiction titles on this list, please talk with your local librarian.
