Foreword

This bibliography collects graphic novels that include a main character who identifies as LGBTQ+ that has been published since 2006. This can include both a sole main character or a member of an ensemble of main characters. Graphic novels with LGBTQ+ supporting characters were not included to keep the bibliography focused. Titles that were originally published prior to 2006, but were re-printed since 2006 have also been included.

This is not an exhaustive bibliography, nor is it meant to be. Rather, its purpose is to showcase and highlight a large, diverse number of titles in the realm of LGBTQ+ comics. Except for one exception, all the entries have a link to the title's corresponding Worldcat entry.

This bibliography has been compiled and annotated by Eric Hanshaw.
