Intellectual Freedom Highlights

- [Defend Pride at Your Library](#) | Intellectual Freedom Blog; "Beyond merely avoiding the exclusion of materials representing unorthodox or unpopular ideas, libraries should proactively seek to include an abundance of resources and programming representing the greatest possible diversity of genres, ideas, and expressions. A full commitment to equity, diversity, and inclusion requires that library collections and programming reflect the broad range of viewpoints and cultures that exist in our world. Socially excluded, marginalized, and underrepresented people, not just the mainstream majority, should be able to see themselves reflected in the resources and programs that libraries offer."
