Volume 13, Number 3
June, 1992
baseline is an official publication of the American Library Association's Map and Geography Round Table (MAGERT). The purpose of baseline is to provide current information on cartographic materials, other publications of interest to map and geography librarians, meetings, related governmental activities, and map librarianship. It is a medium of communication for members of MAGERT and information of interest is welcome. The opinions expressed by contributors are their own and do not necessarily represent those of the American Library Association and MAGERT. Contributions should be sent to the appropriate editor listed below:

FROM THE CHAIR

The June issue of base line is an indicator of at least two things: the ALA Annual Conference is just around the corner and this is the current chair's last column. More on the latter, later. First, let's look at the ALA Annual Conference.

In this issue you will find the "almost" final edition of the MAGERT schedule of meetings for the 1992 Annual Conference, which will be held in San Francisco. It is a final schedule, in that the meetings, dates, and times are set and confirmed. However, when I mailed my copy to Nan, ALA had not yet designated meeting locations or room assignments. As soon as the room assignments are made, I will post a copy of the MAGERT schedule on MAPS-L and GOVDOC-L. If you do not have access to either of these list serves, please feel free to contact me sometime towards the middle or end of May and I will send you a copy of the schedule. I assume that by then all room assignments will have been made.

IMPORTANT NOTE: The enclosed MAGERT schedule is considerably different from the preliminary schedule that appeared in the April issue of base line. Disregard any and all previous editions of the MAGERT schedule. This means any schedule with a revision date before May 6, 1992.

Just a couple of comments on some of the events and activities that appear on the MAGERT schedule. The Book Club of California will be hosting an open house on Friday, June 26, 1992, from 10:00 a.m. to 8:00 p.m. I want to extend my thanks and appreciation to the Book Club for their hospitality and generosity. I would appreciate it if you would let me know, by June 15th, if you plan to visit the Book Club and the approximate time of your visit. This information will be used by the Book Club of California to plan for staffing. Your cooperation is appreciated.

The traditional open house/MAGERT "Get Together" will be held on Friday, June 26th (8:00 p.m. -- 10:30 p.m.), in the Wine Room at the Savoy Hotel. On Saturday, June 27th, MAGERT is co-sponsoring GODORT's 20th Anniversary Celebration. The reception will take place on the Dolph-Rempp sailing ship. More detailed information on the reception and directions to the ship are included in this issue of base line. Finally, on Monday night, June 29th, the UC Berkeley Libraries will be hosting a reception in the Library Map...
As I continue onto a second page of my last FROM THE CHAIR column, I just want to say that it's been fun. It's also been work, but the benefits far outweigh the deadlines, workload, and the infinite number of forms that one fills out as chair. It seems like it was just yesterday that I was typing my first FROM THE CHAIR column. I guess time does fly when you are having fun. The year would have lasted an eternity if I didn't have such a great group of people to work with. I won't mention names (this isn't the Academy Awards!) but I will extend a blanket, and very indebted, thank you to the MAGERT officers (past and present), committee chairs, task force coordinators, the local arrangements people for San Antonio and San Francisco, and everyone else I have called, written to, or e-mailed during the past year. I appreciate your help and support. You made my job as chair an easy and enjoyable one. Thanks again.

Enough already. This issue is packed with information. Enjoy. I look forward to seeing you in San Francisco.

AND FROM THE EDITOR

To everyone who sent me the arrival dates of their issues of base line, THANK YOU! On the editorial front, if any of you have a desire to edit the New Maps column, check elsewhere in this issue for an announcement. After several years of editing the column, Steven Littrell has decided to step down. I'd like to take this opportunity to thank Steve for his hard work and dedication. I've really enjoyed working with him, and I hope that I have the opportunity to do so again sometime.

See you in San Francisco!

PROGRAM ANNOUNCEMENT

``Maps for General Library Collections;
or,
You Can Get There From Here''

American Library Association
1992 Annual Conference, San Francisco, California

Sponsored by:
Map and Geography Round Table (MAGERT)

Day/Date: Sunday, June 28, 1992
Time: 2:00 p.m. -- 4:00 p.m.
Place: To be announced

Description: Map librarians and experts share their knowledge in this program intended for general reference librarians who deal with map reference questions without a formal map collection in their library. The development of a basic cartographic collection will be discussed, including determining what you need, how to acquire it, and how to spend limited funds wisely. Commercial and government maps and atlases will be included. Many informational handouts, bibliographies, and publishers' brochures will be available.

Moderator:
April Carlucci, Assistant Chief, Map Division, New York Public Library
``What to look for in an atlas''
``Resources outside your library''

Speakers:
Greg Armento, Senior Assistant Librarian, California State University Library, Long Beach
``The most commonly asked map reference questions, and how to answer them''
Erno Bonebakker, Library Sales Representative, MapLink, Inc.
``Maps 101; or What to look for in commercially produced sheet maps''
Donna Koepp, Head, Government Documents and Map Library, University of Kansas
``Maps from the Federal Government''
GOVERNMENT INFORMATION ON CD-ROM: MAKING IT WORK FOR YOU

A Program Sponsored by the Government Documents Roundtable (GODORT) at the Annual Meeting of the American Library Association
San Francisco

Monday, June 29, 1992
9:30am-12:30pm

A panel of experienced government documents librarians describes the most useful of the new government CD-ROM products and shares their techniques for facilitating access.

PROGRAM ANNOUNCEMENT

``TIGER/Line Files and 1990 Census Data; or, How to Handle a Wild Cat!''

American Library Association
1992 Annual Conference, San Francisco, California

Sponsored by:
Map and Geography Round Table (MAGERT)

Co-Sponsored by:
Government Documents Round Table (GODORT)

Day/Date: Monday, June 29, 1992
Time: 2:00 p.m. -- 5:30 p.m.
Place: To be announced

Description: This program will explain the use of GIS systems in libraries; show how to access 1990 Census data from CD-ROMs; describe the process of accessing, compressing, downloading, and exploding TIGER/Line files; and indicate the minimum level of hardware and software to perform these functions. GIS software vendors will also be on hand to demonstrate their products and how they handle the TIGER/Line files and 1990 Census data.

Moderator: Patrick McGlamery, Map Librarian, Homer Babbidge Library, University of Connecticut

Speakers:
Bill Middleton, Head, Documents Service Center, Columbia University Libraries
Robert Bolin, Reference Librarian, University of Idaho Libraries

Reception location map and transportation information to be provided
**GODORT Reception Directions**

**Reception:** On the Dolph Rempp at pier 42 (this is a dry-docked ship, i.e. on land)

**Walking:** For good walkers, a maximum of 30 minutes; generally, a relatively safe industrial area, but don't walk alone; walk South on 4th or 3rd for 4/5 blocks from Moscone Center until you reach Townsend. Turn East for 2/3 blocks until you reach the "Embarcadero"; turn right (South) for 1 block.

**Bus:** Take #30 South on 4th street (get a transfer when paying $1 fare); transfer at Townsend (train depot) to #42 (East); exit at 2nd street; walk East on Townsend for 1 block to the "Embarcadero"; turn right (South) for 1 block.

**Taxi:** "Pier 42" at South Beach Marina; about $6
NEW BOOKS AND ATLASES

Hall, Stephen S. Mapping the Next Millennium: The Discovery of New Geographies. NY: Random House, 1992. $30. ISBN 0-394-57635-7. 'Provides an almanac for the 21st century that illustrates the fascinating new worlds that science is in the process of discovering. ... describes the incredible maps that are being charted. These are not geographical maps in the traditional sense; they are, rather, the beautiful, colorful, startling, disquieting computer-generated cartographies of new and exotic terrains being opened up by biologists, physicists, chemists, astronomers, even mathematicians.'

ON THE CATALOGING/ CATALOGUING FRONT

The MAGERT Cataloging and Classification Committee, which is chaired by Chris Kallen, will meet at ALA from 9:30 a.m. to 11:00 a.m. on Sunday, June 28, 1992. The ALCTS/CCS/MAGERT Map Cataloging Discussion Group will meet from 4:30 p.m. to 5:30 p.m. on Sunday, June 28th. The discussion topic will be Cataloging Antiquarian Maps: Problems and Questions. The discussion leader will be Randal S. Brandt, who is a map cataloger at UC Berkeley. Nancy Kandoian is the chair of this group, but she will not be able to attend, so Phil Hoehn will lead the meeting. This group will be having an election for a new chair at the meeting. The candidates are Karl Longstreth, Map Librarian at the University of Michigan, and Michael Carpenter, who is a member of the faculty at the library school at Louisiana State University.

At Midwinter the Map Cataloging Discussion Group discussed Library of Congress's minimal-level or less-than-full-level cataloging. Elizabeth Mangan from the Map and Geography Division of the Library of Congress was the discussion leader. There are no standards in the MARC format for this level of cataloging. In this level of cataloging, the main entry does not have to be established. The name is either used in the form that is found on the material being cataloged, or the cataloger takes his best guess. The encoding level for minimal-level cataloging is level 7, and the letters MLC appear at the end of the call number.

The material is fully classified, but only fully-established subject headings are added to the bibliographic record, and only three subject headings at the most are added unless two maps are being cataloged on the same record. The cataloger does not go to broader subject headings. No added entries are made for names, but added entries are made for series and for variant titles. Series are not established—if the series has not been established, it is tagged as an untraced series. The minimal-level cataloging project covers all material currently being received except new editions of material already cataloged under AACR2, globes, maps in the vault, map series or sets, material for which the main entry has already been established, and maps which require more than three subject headings. The information given in notes has also been reduced.

Other news from the Library of Congress is that coordinates are not to be included in the 255 field even if they are on the piece. Using the 653 field for base line 13(3): 18
uncontrolled subject headings did not work as there were too many inconsistencies. LC's intention had been to update the geographic cutters in the Cataloging Service bulletin, but there will be 1,000 additions and changes when all of them are finished, so they do not know if they will be able to print the changes in the CSB or not. The Library of Congress is establishing cutters for bodies of water. These cutters will either be a separate paper update or may be in the CSB eventually. LC would like to sell the cutters on disks using Pro-Cite software for both Apple and IBM computers. Eventually the cutters will be searchable on CD-ROMs. Foreign cutters are being put on CD-ROMs.

NEW MEMBERS

I'd like to welcome 10 new members to MAGERT. They are: Carolyn Gates (Santa Barbara, CA), Wendy R. Hassibe (Reston, VA), Donald W. Jacobsen (New York, NY), William J. Seufert (New York, NY), Margaret Jane Stauble (Vicksburg, MS), Joseph Becker (Pacific Palisades, CA), Ruth Monical (Phoenix, AZ), Rebecca L. Mugridge (Pittsburgh, PA), Barbara A. Shupe (Massapequa, NY), and Susan E. Arrill (New York, NY).

The New Members and Executive Board Lunch is scheduled for 12:30 p.m. to 2:00 p.m. on June 27, 1992. Everyone is welcome! Unfortunately, we don't have a place yet. If you want to attend, check with Jim Walsh (address inside front cover) just before or during ALA for the location.

NEW MAPS EDITOR NEEDED

After several years of dedicated efforts, Steven Littrell has decided to step down as New Maps Editor in order to devote his time to new responsibilities in his work at the University of Texas. I certainly have enjoyed working with him, and I wish Steven the best of luck in his new responsibilities. His last column will appear in issue 13(4).
All this brings me to the point-- I am asking someone to volunteer to take over this column. Basically, what it involves is compiling a list of new maps which you've either seen (or for which someone sent you a citation.) Ideally, the list should appear every issue, although sometimes circumstances prevent that from happening.

If anyone is interested or would like more information, please feel free to contact me. (Nan Butkovich, Physical Sciences Library, 230 Davey Laboratory, Penn State University, University Park, PA 16802 Tel.: 814/865-3716 Bitnet: njb@psulias).

**MAGERT BOOTH**

How would you like to have the opportunity to help MAGERT? How would you like to have a little fun while at ALA? How would you like to have the opportunity to meet a lot of people? What? Are you champing at the bit? Did I hear someone answer "YES!!!"?

Well, have I got an opportunity for you. Volunteer to work an hour or two at the MAGERT booth in the exhibits area at ALA. It's a lot of fun (really); you get to meet some really neat people; and you get to help publicize the work that MAGERT does. If you are interested, contact Harry Davis at Library, Southern Illinois University, Carbondale, IL 62901-6632 Tel.: 618/453-2705.

**COMPUTER EDITOR NEEDED**

Are you interested in editing the Computer Corner? It's purpose is to inform people about new products and developments related to computer applications in cartography/geography/GIS, etc. Although the column has been around for awhile, it's gotten to the point where it needs a full-time editor. If you are interested or would like further information, contact Nan Butkovich, Physical Sciences Library, 230 Davey Laboratory, Penn State University, University Park, PA 16802 Tel.: 814/865-3716 Bitnet: njb@psulias
GREAT MOMENTS IN MAP LIBRARIANSHIP

MOMMY, WHY IS THAT MAN LOOKING AT A MAP?

I DON'T KNOW, DEAR..... WHY DON'T YOU LEAVE HIM ALONE AND PLAY "GUESS WHO'S A LIBRARIAN ON THIS PLANE?"

ARE WE LOST?

DON'T BE SILLY....

EXCUSE ME, SIR. COULD I TAKE A LOOK AT THAT CHART?
