This annual compilation is the responsibility of the Public Libraries Division of the American Library Association. The Notable Books Council (of the Division), composed of twelve members, cooperates with a number of participating libraries in the selection of the titles on the list.

Mr. Bernard Van Horne, Librarian, Library Association of Portland, Oregon, Chairman of the Council, says:

"The books were chosen from a long list of excellent examples of noteworthy publishing in the year 1956. The listed titles are particularly valuable for their contributions to understanding among individuals and groups, their originality or fine writing, but above all for their genuine interest and appeal for the general reader who seeks to broaden and deepen his understanding of himself, his world, and his society.

Thirty-five libraries participated in the project during 1956. Though the December titles available were considered, the effective work of the Notable Books Council should not be considered to extend beyond November 30, 1956. All December titles should be examined by the Council for possible inclusion on the list for 1957."
