Critical illness insurance

Critical illness insurance may help you cover expenses not covered by your health insurance.

It's a cash payment you receive if you ever experience a serious illness like cancer, a heart attack, or a stroke, giving you the financial support to focus on recovery.

Who is it for?

Critical illness insurance is a supplemental policy for people who already have health insurance. It provides you with an additional payment to cover expenses like deductibles, treatments, and living costs.

What does it cover?

Critical illnesses include strokes, heart attacks, Parkinson's disease and cancer. Our policies can cover over 30 major illnesses, helping you stay financially stable by paying you a lump sum if you're diagnosed with one of them.

Why should I consider it?

Health coverage is becoming more expensive, with higher co-pays, premiums, and deductibles. Critical illness insurance is an affordable way to supplement and pay for additional expenses that your health insurance doesn't cover. Our policies typically provide payments for the first and second time you're diagnosed with a covered illness.

Plus, critical illness insurance is portable and payments are made directly to you.

You will receive these benefits if you meet the conditions listed in the policy.

Critical costs

John is hospitalized after a heart attack, and has to cover the cost of five days as an inpatient.

Average heart attack hospitalization expense: \$53,000

Average Major Medical deductible: **\$1,500**

Major Medical covers 80% of the cost after the deductible is met, but John's still responsible for 20%: **\$10,300**.

Total out-of-pocket amount for John (deductible + coinsurance): \$11,800.

John has a **\$10,000** Guardian Critical Illness policy, which covers the majority of these out-of-pocket expenses.

By related we mean either: (a) both Critical Illnesses are contained within the Cancer Related Conditions category; or (b) both Critical Illnesses are contained within the Vascular Conditions category. We will not pay benefits for a Second occurrence (recurrence) of a Critical Illness unless the Covered Person has not exhibited symptoms or received care or treatment for that Critical Illness for at least 12 months in a row prior to the recurrence. For purposes of this exclusion, care or treatment does not include: (I) preventive medications in the absence of disease; and (2) routine scheduled follow-up visits to a Doctor.

We do not pay benefits for claims relating to a covered person: taking part in any war or act of war (including service in the armed forces) committing a felony or taking part in any riot or other civil disorder or intentionally injuring themselves or attempting suicide while sane or insane.

Employees must be legally working in the United States in order to be eligible

Accident insurance

Accidents happen. With accident insurance, you can help them hurt a bit less.

Accident insurance is an extra layer of protection that gives you a cash payment to help cover out-of-pocket expenses when you suffer an unexpected, qualifying accident.

Who is it for?

Nobody can predict when an accident might happen. That's why accident insurance is an important add-on policy for people who want to supplement the health and disability insurance coverage they already have individually or through an employer.

What does it cover?

Accident Insurance pays you lump sum of benefits after you suffer an accident. This could be more than 40 different circumstances, including: emergency treatment, ambulance, burns, dislocations, fractures, hospital confinement, and surgery.

Why should I consider it?

Health coverage may become more expensive, with higher co-pays, premiums, and deductibles. Accident insurance can be a simple, affordable way to help supplement and cover additional expenses your health and disability insurance may not cover, including x-rays, ambulance services, deductibles, and even things like rent or groceries.

Plus, accident insurance is portable and payments are made directly to you.

How hospital indemnity insurance can give you a comfortable stay.

Hospital indemnity **insurance**

Hospital indemnity insurance can cover some of the cost associated with a hospital stay, letting you focus on recovery.

Being hospitalized for illness or injury can happen to anyone, at any time. While medical insurance may cover hospital bills, it may not cover all the costs associated with a hospital stay. That's where hospital indemnity coverage can help.

Who is it for?

Hospital indemnity insurance is for people who need help covering the costs associated with a hospital stay if they suddenly become sick or injured.

What does it cover?

If you are admitted to a hospital for a covered sickness or injury, you'll receive payments that can be used to cover all sorts of costs, including:

- Deductibles and co-pays.
- Travel to and from the hospital for treatment.
- · Childcare service assistance while recovering.

Why should I consider it?

Health coverage is becoming more expensive, with higher co-pays, premiums, and deductibles. Hospital indemnity insurance can help pay for out-of-pocket costs associated with being hospitalized, giving you more of a financial safety net for unplanned expenses brought on by a hospital stay.

Plus, hospital indemnity insurance is portable and payments are made directly to you – even if you didn't incur any out-of-pocket expenses.

You will receive these benefits if you meet the conditions listed in the policy.

Be prepared

John is hospitalized after a heart attack, and has to cover the cost of five days as an inpatient.

Average heart attack

hospitalization expense: \$53,000

Average Major Medical deductible: \$1,500

Major Medical covers 80% of the cost after the deductible is met, but John's still responsible for 20%: \$10,300.

Total out-of-pocket amount for John (deductible + coinsurance): \$11,800.

John's Guardian Hospital Indemnity policy pays him \$1,000 for hospital admission.

The policy gives him a total payment of \$1,000 to help cover the out-ofpocket amount.
