Statement of Professional Concerns

Over twelve years I have built a strong record of involvement in ALA, especially within the round tables and through committee participation. Elected to Council as the GLBTRT Councilor, I have represented that vibrant and growing round table well. In my time on Council, I have extended myself beyond interests with strong connection to that round table to share Council concerns with members across the Association and hear what they have to say. I am eager to deepen my commitment through election to the Executive Board where I would be responsive to Council and members. The work of the Executive Board involves processing many documents and information from all parts of the Association, and I will gladly shoulder the work that needs doing. My proven record of dedication, reliability, and experience in the Association and my enthusiasm for the profession will be assets to the Executive Board.
