

**COL/IFC Joint Working Group on the Resolution on Gun Violence Affecting  
Libraries, Library Workers, and Library Patrons**

**Report to Council**

**2017 ALA Midwinter**

**Atlanta, GA**

**Tuesday, January 24, 2017**

A resolution about the subject of gun violence was passed at the Membership Meeting at ALA Orlando 2016. In accordance with ALA procedures, when the resolution came to ALA Council, they directed the Committee on Legislation and the Intellectual Freedom Committee to establish a working group to continue to work on the resolution.

In September and November 2016, the working group developed several discussion drafts. The working group then invited all ALA members to provide it with feedback on its discussion drafts. The working group reviewed all the comments, and used them to help frame the working group's discussions as it prepared a draft resolution to substitute for the original resolution.

In crafting the substitute resolution, our intent was to identify and articulate those concerns which are shared across the membership and produce a consensus resolution that speaks to and for all of us.

**Action Item:**

The Gun Violence Working Group moves the substitution of CD#45.3, Revised Resolution on Gun Violence Affecting Libraries, Library Workers, and Library Patrons, for CD#45, Resolution on Gun Violence Affecting Libraries, Library Workers, and Library Patrons.

Respectfully Submitted,

Working Group on the Resolution on Gun Violence Affecting Libraries, Library Workers, And Library Patrons

Ann Ewbank, Chair, Committee on Legislation and Co-Facilitator of the Working Group

Pam Klipsch, Chair, Intellectual Freedom Committee and Co-Facilitator of the Working Group

Melissa Cardenas-Dow

***The ALA Council deferred action on this resolution until the 2017 ALA Midwinter Meeting***

**RESOLUTION ON GUN VIOLENCE AFFECTING LIBRARIES, LIBRARY  
WORKERS, AND LIBRARY PATRONS**

Whereas on June 12, 2016, 49 people were murdered by gunfire in Orlando, FL, the host city of the 2016 Annual ALA conference;

Whereas the safety and security of all communities served by libraries across the United States are constantly threatened by unexpected and potentially lethal gun violence;

Whereas the safety and security of workers in, and patrons served by, libraries of all kinds in all areas of the country are vulnerable to unexpected and potentially lethal gun violence;

Whereas the incidence and scale of gun murders and other gun violence in the United States are far greater than those in any other advanced country;

Whereas that incidence and scale are directly affected by the ready availability of guns (handguns, assault rifles, etc.) in the United States due to lax gun laws, the absence of sensible gun control laws, and the efforts of the gun lobby and the manufacturers of guns to resist these controls;

Whereas ALA passed a Resolution on Gun Violence in 2015 spurred on by the 9 people , including our colleague Cynthia Hurd, murdered by gunfire in Charleston, South Carolina, on June 17, 2015; and

Whereas the only thing needed for the triumph of evil is for good people to do nothing and to remain silent; now, therefore, be it

Resolved, that the American Library Association (ALA), on behalf of its members:

1. extends its sincere condolences to the family and friends of the 49 people who were shot dead at the Pulse nightclub in Orlando, and to all the families and friends of the thousands of victims of gun violence;
2. deplors the gun violence that materially affects the communities we serve;
3. works with other professional associations to support sensible and effective and national gun safety laws, oppose “gun friendly” state legislation, in particular any legislation that permits the carrying of guns in or near libraries and schools;

4. calls on Congress to lift restrictions that prohibit the Centers for Disease Control and Prevention and other Department of Health and Human Services agencies from conducting gun violence research as a response to library communities in crisis;

5. resolves to advance the idea of libraries mitigating violence in our culture by serving as “safe havens” for the public, as evidenced during the recent uprisings in Ferguson, MO and Baltimore, MD, and by offering public education opportunities that advance the notion of libraries as perpetrators of peace.

Mover: Martin Garnar, ALA Personal Member and ALA Councilor

Seconded: Trevor A. Dawes, ALA Personal Member and ALA Councilor

***On Tuesday, January 24, 2017, the ALA Council adopted this resolution as amended.***

## Revised Resolution on Gun Violence Affecting Libraries, Library Workers, and Library Patrons

Whereas the safety and security of library workers and the people they serve across the United States are threatened by unexpected and potentially lethal gun violence<sup>1</sup>;

Whereas libraries disseminate information about topics of interest to their communities and serve as safe spaces for open inquiry and discussion;

Whereas the ALA Council passed the Resolution on Gun Violence (ALA Annual 2015 CD#45) stating that ALA:

- deplores the gun violence that materially affects libraries in the communities we serve;
- will work with state chapters and affiliates to support legislation that allows the prohibition of the carrying of guns in or near libraries and other educational institutions;

Whereas the ALA Council passed the Resolution Calling Upon Libraries to Build More Inclusive Communities (ALA Annual 2016 CD#44) stating that ALA:

- urges libraries, librarians, and library workers to cultivate more inclusive communities by actively engaging their communities to defuse and deescalate a culture of violence based on hatred, discrimination, and bigotry;

Whereas many public-service associations, such as: the American Medical Association, American Public Health Association, American Psychological Association, American Educational Research Association, National Parent Teacher Association, Student National Medical Association, Association of American Universities, National Association of School Psychologists, American Nursing Association, and the National Association of Social Workers have publicly stated the need for additional research into the causes of gun violence in our communities;

Whereas the 1996 Congressional report language commonly known as the “Dickey Amendment” (110 STAT 3009-244) limits expenditures only as follows: “That none of the funds made available for injury prevention and control at the Centers for Disease Control and Prevention may be used to advocate or promote gun control;”

Whereas the Consolidated Appropriations Act of 2012 (125 STAT 1085) and subsequent legislation limits expenditures only as follows: “None of the funds made available in this title may be used, in whole or in part, to advocate or promote gun control;”

Whereas non-political, comprehensive research is not prohibited by any germane statutory language; and

## Revised Resolution on Gun Violence Affecting Libraries, Library Workers, and Library Patrons/2

Whereas a FY1997 House Appropriations report acknowledged “The CDC may need to collect data on the incidence of gun related violence, but the... Committee expects research in this area to be objective and grants to be awarded through an impartial peer review process;”<sup>2</sup> now, therefore, be it

*Resolved*, that the American Library Association (ALA), on behalf of its members:

1. grieves with the families and friends of all those victimized by gun violence;
2. calls upon the Directors of the National Institutes of Health (NIH) and the Centers for Disease Control and Prevention (CDC) to:
  - publicly announce that their respective agencies will resume funding non-political, comprehensive research on causes and effects of gun violence in the United States; ensure that such research, and any uses to which such research is put by the NIH or CDC, does not violate the “Dickey Amendment” prohibition on the advocacy or promotion of gun control; and
  - sponsor robust research for the dual purposes of “preventing firearm injuries” and identifying “ways to prevent firearm deaths . . . without encroaching on the rights of legitimate gun owners”;
3. encourages libraries to collaborate with appropriate local agencies to provide training and education for library workers related to the presence of guns in the workplace; and
4. encourages libraries to support community discussions around all aspects of guns in society.

Adopted by the Council of the American Library Association  
Tuesday, January 24, 2017, in Atlanta, Georgia

Keith Michael Fiels  
Executive Director and Secretary of the ALA Council
