The Honorable Kelly Speakes-Backman
Principal Deputy Assistant Secretary
Office of Energy Efficiency and Renewable Energy
U.S. Department of Energy

Re: Request for Information on Energy Improvements at Public School Facilities
87 FR 20828, RFI No. DE-FOA-0002715

Dear Ms. Speakes-Backman,

The American Library Association (ALA) respectfully submits these comments in response to the Office of Energy Efficiency and Renewable Energy’s (EERE) request for information (RFI) regarding energy improvements at public school facilities pursuant to the Infrastructure Investment and Jobs Act (IIJA), P.L. 117-58. ALA encourages EERE to implement policies that promote sustainable and healthy environments for librarians, students, and staff.

As the RFI recognizes, school libraries are significant components of school facilities. We encourage EERE, in implementing Section 40541 of the IIJA, to support energy improvements in all areas of school buildings, including school and joint-use libraries. In response to Category 2, Question 1, we recommend that needs assessments review all areas of the school campus, including libraries, to identify needed improvements. Thank you for your consideration.

Sincerely,

Kathi Kromer
Associate Executive Director, Public Policy and Advocacy
American Library Association
