The Chapter Relations Committee and the International Council of Library Association Executives consider the model used by the Washington Office to address UCITA legislation to be extremely effective in providing the information, support and communication to chapters that resulted in successful defeat of legislation that would have been damaging to libraries and their users. We urge the Executive Director to ensure that there is support in the Washington Office to continue this model to cooperate with chapters in addressing the challenges as additional state legislation resulting from federal legislation is introduced.

Approved by the Chapter Relations Committee on Monday, June 28, 2004.
