Government Information Technology Committee (GITCO)

[GITCO Home](#) > Annual '96 Minutes

Sunday, July 7, 1996, 2:00-3:45 p.m.
Sheraton New York, Liberty Suite 3

Minutes of Meeting:

1. A letter was sent to UC Berkeley thanking them for housing the current GODORT Web site. GITCO recommends that we form a joint task force with Publications Committee to recommend standards for html markup procedures for GODORT publications, and for a uniform look to GODORT pages on the Web. The Archivist should be a member of this committee. GITCO further recommends the creation of the position of "electronic publications editor". This task force will also address the future of the GODORT home page.
2. GITCO will continue to discuss with the Cataloging Committee issues of mutual interest.
3. The committee will continue to discuss:
 - benchmark standards
 - a comprehensive government information page
 - documentation for electronic products
4. Issues related to training and continuing education were discussed during the joint meeting with the Education committee.
