

DRAFT annual 09 minutes

From GODORT

SUMMARY

The committee hosted a briefing by representatives of the Government Printing Office on recent developments and new collections available through the Federal Digital System. The committee discussed the status of the online e-competencies toolkit and the feasibility of forming GITCO subgroup to address numeric data issues. Addressing new business, the group reviewed summary information from the three spring virtual forums. The forums focused on emerging issues for 1) users of electronic government information 2) advocacy for electronic government information and 3) an internally focused discussion about committee structure. After a review of the ideas generated from these forums, GITCO members voted to form a subcommittee to explore and report on the various platforms and novel topics that can extend GITCO's capacity to provide training opportunities in support government information provision in a sophisticated electronic environment. The committee also expressed interest in forming collaborations with the web developers group, in order to increase the ability of the committee to support applied technology projects.
