

Resolution to Achieve Carbon Neutrality for ALA Conferences

Whereas ALA Council adopted Sustainability as an ALA Core Value in January 2019 (ALA CD37, Council Documents 2019 ALA Midwinter Conference)¹;

Whereas it is recognized² that conferences/events generate a substantial carbon footprint for in-person events and generate a technology-based carbon footprint for virtual events;

Whereas ALA divisions and units are aware of the need to address the carbon impact and other sustainability aspects of conference gatherings but initiatives are inconsistent^{3,4,5};

Whereas the ALA Executive Board implemented a voluntary carbon offset fee for conference attendance beginning with Midwinter 2020 (in-person);

Whereas ALA Conference Services has purchased carbon offsets for ALA Midwinter and Annual equating to about 50% of estimated carbon footprint generation, beginning with Midwinter 2020; and

Whereas continuing ALA's ongoing voluntary efforts and strengthening these efforts through a measurable goal and supporting policy would be a strong way to demonstrate ALA's and members' commitment to sustainability; now, therefore, be it

Resolved, that the American Library Association (ALA), on behalf of its members:

1. pursues a goal of carbon neutrality for all ALA conferences by the year 2025 and will remain carbon neutral for these events thereafter;
2. delegates to the ALA Council Committee on Sustainability to assist and track progress toward this goal; and
3. encourages all divisions, roundtables, chapters, affiliates, and others who work with the Association to consider adopting similar goals to reduce carbon footprints.

*Adopted by the Council of the American Library Association
Monday, June 28, 2021, ALA Virtual Annual Conference Council Meeting*

A handwritten signature in black ink, appearing to read "Tracie Hall", written in a cursive style.

Tracie D. Hall, Executive Director and
Secretary of the ALA Council
