## Memorandum

To: American Library Association Election Committee  
From: Ryan, Hodgins & Associates CPAs  
Date: April 6, 2023  
Re: Audit for 2023 Election

---

We have reviewed the internal control procedures of Survey & Ballot Systems, Inc. regarding the processing of the American Library Association's 2023 election.

1. We initially discussed the election process on February 28, 2023 and obtained an understanding of the internal processes and procedures relating to this election.
2. We performed an independent online test batch on March 2, 2023 to review the online process and to test the control procedures. We processed 32 test logins consisting of 144 ballots and compared them to the test batch results. We found 100% accuracy, NO errors, during this process.
3. On April 6, 2023 we discussed the counting process and internal control system to review how the ballots were received, monitored, and secured. We also reviewed the web voting system, process, and security features.
4. Based on our observations and sample ballot testing, if all of the ballots processed followed these established internal control procedures, then the final results reported are accurate in all material respects.
