TASK FORCE

COSWL BEGINS YEAR-LONG CELEBRATION OF ITS TEN YEARS OF WORK:

Along with COSWL stickers and a reception in the suite of ALA president Regina Minudri, the Committee

on the Status of Women in Librarianship sponsored, with the support of the Feminist Task Force, a lecture by Black feminist Flo Kennedy, who spoke

about "The Power Position of the Librarian in a Pathological Society." Known for

her incisive wit, Flo Kennedy did not disappoint her audience. She explained right from the start that her basic mes-

sage would be, "Kick Ass," that she feared that librarians and women in general too often develop "Nigger nobility," a fear of offending akin to spray-

ing cologne in case the rapist comes; that many of us may have the motto, BOHICA, Bend over, Here It Comes Again. Surrounded by tools of information, we li-

brarians are in positions of power. We should use that power for our own good and for the good of our communities. As outreach, we might encourage our activist patrons to make videotapes within our facilities to broadcast on cable television; our libraries could then circulate the original tapes to the public. Since we are often in public service departments, librarians are in a good situation to stir up people...and to learn from them.

ACRL WOMEN'S STUDIES...DISCUSSION GROUP FLIES UP TO SECTION:

Outgoing Group leader Sarah Watstein assisted members in understanding what it means for an ACRL Group to become a Section. As of the annual convention of 1987, this will be a Section. We'll have to navigate through more red tape than we did as a discussion group, but we will receive more attention (important to women's studies as a discipline) and will have more capabilities for programming and publishing. Until the San Francisco meeting, Lori Goetsch (Michigan State University) and Susan Searing (University of Wisconsin-Madison) are the Discussion Group co-chairwomen. Beth Stafford and Ruth Dickstein will be Section leaders. At Midwinter, we shall want to develop other offices, including a nominating committee. Janet Freedman, Sherry Berman, and Bernice Lacks formed a committee to perfect the Section bylaws. Anyone interested in membership in the Section can join by first joining ACRL.

Further meetings reports will appear in the next issue of this newsletter

CHALLENGES:

The Womyn's Braille Press, Box 8475, Minneapolis, MN 55408, serves blind women and their friends with cassettes and Braille books pertaining to feminist concerns. Cassettes include texts used in women's studies courses, feminist journals, novels, poetry, and nonfiction, as well as a Press newsletter. Subscription/memberships are on a sliding scale.

The Women and Disability Awareness Project, Educational Equity Concepts, 450 Park Ave. South, NY, NY 10016, publishes information packets for consciousness raising.

ABLEDATA is a product database from the National Rehabilitation Information Center at Catholic University, 4407 Eighth St. NE, Wash., DC 20017. For each device (ambulation, communication, home management, personal care, recreation, therapy, transportation, vocational/education) is a description with cost and manufacturer.

NEWS:

The Office of Library Outreach Services of ALA is developing a project to provide one-year internships for eight "minority" librarians, who will work in a diversity of ALA divisions. The project aims to redress ALA's 110-year history of having hired only six nonwhite librarians. For further information, contact Jean Coleman at ALA.

The Pornography Resource Center, 734 E. Lake St., Minneapolis, MN 55407, requests any articles on pornography and racism.

Research about women is no easier than it was 40 years ago, if you rely on the popular press, according to "The Minimal Image of Women in Time and Newsweek, 1940-1980," by Mary L. Matthews and Carol Reuss of the Univ. of North Carolina School of Journalism. Women as a percentage of newsmakers pictured in these illustrated glossies were:

	1940	1960	1980
Newsweek	23%	21%	20%
Time	17%	19%	19%

**Share what you know!--Send news, reviews, etc. to WOMEN IN LIBRARIES, c/o Leslie Kahn, 2 Manchester, 2A, Newark, NJ 07104.

COSWL, CONTINUED

In its business meetings, the Committee planned further celebration activities, considered ideas for creating a publication or videotape for public library boards about judicious hiring policies, and chose Betty-Carol Sellen as its new chairperson.

Conferences

National Women's Studies Association

Among the myriad of programs sponsored by NWSA conference, 1986, at the University of Illinois was "Working for Change: Librarians as Activists". The moderator was Lori A. Goetsch, Michigan State University. The panelists and their topic included: Edi Bjorklund (University of Wisconsin, Milwaukee), Underground Writing by and for Women Fanzines and Libraries; Michelle Leber (Fairfax County Public Library, Virginia), Pay Equity and Librarians; Beth Sibley (University of California, Berkeley), Peace and Nuclear Weapons Issues; Janet Freedman (Southeastern Massachusetts University), Library Administration; and Mary Vela-Creixell (Houston Public Library), Minority Women in Libraries. Their unifying idea was that librarians can and do identify social issues they wish to be connected with and spend time and energy in order to make a difference.

Law

The American Association of Law Libraries membership adopted the Pay Equity Resolution proposed by Pamela Gregory and Mary Vela-Creixell, Co-Chairs of the Committee on the Status of Women in Law Libraries.

Filipino librarian may sue the Chicago Public Library System for racial discrimination, the 7th U.S. Circuit Court of Appeals has ruled in Erlenda Regner v Chicago. This overturned the U.S. District Court for the District of Illinois. Regner charged that the library promotion practices had a disparate impact on minorities. She offered evidence stating that the % of minorities promoted at the main building is less than the % promoted in the total minority library workforce. The district court determined that Regner tried to "gerrymander" the statistics, stating she used data based on the entire library pool in order to show how many minorities there were; appeals court held that the library must show a business necessity of clustering non-white promotions in branch libraries while promoting whites in the main library.

The Parental & Medical Leave Act of 1986 (H.R. 4300) has received the unanimous approval of the House Post Office and Civil Service Committee and the House Education and Labor Committee, (FER, May 14, 1986). The legislation provides federal and private employee with leaves of absence for child-care or for serious illness. H.R. 4300 would allow parents to take up to 18 weeks of unpaid, job-protected leave upon the birth, adoption, or serious illness of a child. Workers with serious medical conditions would be able to take up to 25 weeks of unpaid, job-protected leave. Employers would be required to continue the health insurance of workers taking leave. Write to your congressional rep. or senator.

The Ford and Rockefeller Foundation are funding pay equity research being conducted by the National Research Council's Committee on Women's Employment and Related Social Issues, Commission on Behavioral and Social Sciences and Education. The project officer is Heide Hartmenn (202) 334-3591. Contact her for information.

Library workers are invited to contribute squares, which the experienced Wisconsin Women Library workers will assemble. Ideas for squares include women and girls as library users; library materials by, for, and about females; feminist issues vital to librarians (pay equity, daycare, flex-time, women in management, etc.); women in nontraditional library positions; feminist impact on the profession; countering stereotypes; women in library history. Additional ideas are welcome. Designs may be illustrative or symbolic, simple or detailed, and may feature a wide range of needlework techniques.
