

A New Way to Lower Drug Costs

Blue Cross and Blue Shield of Illinois (BCBSIL) is a leader in transforming how pharmacy benefits are delivered. Our complete pharmaceutical management strategy links pharmacy, medical and behavioral health benefits to lower overall health care costs, improve health outcomes and deliver an unrivaled member experience.

It's a New Way to Save

BCBSIL is now working with Rx Savings Solutions™ (RxSS) to help your employees and others on your health plan easily find the lowest-price options for prescription drugs – at no additional cost.

RxSS Generates Savings for Employers

By putting the power of savings into members' hands, employers save an average of \$393.40 annually* every time members successfully switch from a higher cost drug to the suggested lower cost drug.

Members who use RxSS save an average of \$573.26 annually* every time they successfully switch from a higher cost drug to the suggested lower cost drug.

*Based on RxSS fiscal year 2021 analysis of members who chose a suggested lower-cost prescription option.

\$393.40

Average annual employer savings every time members switched to suggested lower cost options in 2021

\$573.26

Average annual savings for members each time they switched to suggested lower cost options in 2021

About Rx Savings Solutions

Founded and led by pharmacists, RxSS provides your employees with the technology and clinical expertise to reduce prescription drug costs, increase medication adherence and improve quality of life.

How it works

- RxSS uses software that matches members' medications to options that cost less under their BCBSIL prescription drug plan.
- RxSS contacts registered members via their preferred method (email, phone, text or U.S. mail) when lower-cost prescription drugs are available and lets them compare prices.
- When a lower-priced drug is available, switching is easy. At a member's request, RxSS will consult with the prescribing provider to obtain approval of any changes and take care of all the other details.
- Plus, members can use their account to proactively search for pricing on any medication before their provider writes a prescription.

How do members access RxSS?

It's simple. Members can go to bcbsil.com/rxsavings to register. They can opt out of RxSS communications at any time.

Can dependents use RxSS?

Yes. A member's RxSS online account will automatically show prescription drug information for any dependents on their health plan who are under the age of 18. Adult dependents are required to activate their own RxSS account and can then give access to others to view their information.

How can members get help using RxSS?

Call **800-268-4476** or email support@rxsavingsolutions.com. RxSS has a team of certified pharmacy technicians ready to help.

Call your sales or account executive to learn more.

Rx Savings Solutions (RxSS) is an independent company that contracts directly with Prime Therapeutics to provide Rx consultations. RxSS does not offer other health plan products or services and is solely responsible for the products and services that it provides. There are no endorsements, representations or warranties made regarding third-party vendors. Members should contact the vendor directly with questions about the products or services offered by third parties.

Prime Therapeutics LLC is a separate pharmacy benefit management company contracted by Blue Cross and Blue Shield of Illinois (BCBSIL) to provide pharmacy benefit management and related other services. BCBSIL, as well as several independent Blue Cross and Blue Shield Plans, has an ownership interest in Prime Therapeutics.

BCBSIL makes no endorsement, representations or warranties regarding third-party vendors and the products and services offered by them.
