Invest in our nation's future!

Our nation's 42+ million teens depend on the nation's network of 17,000+ public libraries and 80,000+ school libraries to help them succeed in school and prepare for college, careers and life. Help ensure that our country gets the educated, productive workforce it needs by fully funding legislation that supports libraries, including the Library Services Technology Act, Innovative Approaches to Literacy, and ESSA's Title IV.
